# Fulton County, New York...

*Great Sacandaga Lake at Sunrise*

## *Gateway to the Adirondacks*

**W**hether you seek an active vacation, or just want to relax—Fulton County offers the ideal location for both. We're 40 minutes from Albany, and just a few hours from New York City, Syracuse, Montreal and Boston—located in the foothills of the majestic Adirondack Mountains, truly a four-season vacation destination.

There are 44 shimmering lakes for your swimming, boating, canoeing or fishing pleasure. Seven great courses make golf easily accessible. You'll find mountains for hiking, streams for fishing, woods for hunting and trails for strolling—not to mention beautiful countryside for biking.

In winter, these Adirondack foothills are equally alive with diverse activities. Nordic skiing on groomed trails sheltered by forests, snowshoeing over varied terrain, snowmobiling across our frozen lakes and mountain trails, and alpine

skiing are available for the active winter enthusiast. Spectate or participate in the many events of the "WinterFest." If staying put is more to your liking, consider ice fishing in your own shanty... or, warmer still, relax inside a cozy lodge or restaurant, gazing out at a landscape blanketed with fresh snow!

Anytime of the year, you can seek the numerous colonial landmarks and immerse yourself in history. You can indulge yourself with a shopping spree. Gloversville and Johnstown, known as the Glove Cities (a reminder of their role as the center of this country's leather industry), are home to leather outlets, shops and galleries where you'll discover treasures and souvenirs of your visit.

*Fulton County...the perfect place for your Adirondack adventure.*
